**What to do if caught in a bushfire**

- **Inside your building**
  - Ensure you drink plenty of water so you do not dehydrate.
  - Try to move to a bare or burnt ground at least 100 meters from the fire front if it is not possible to find the nearest bare or burnt ground.
  - Do not run uphill or away from the fire unless you know a safe refuge can be reached before the fire arrives. Try and position yourself downwind of the fire in the following ways:
    - Move across the slope out of the path of the fire front and work your way downhill towards the back of the fire or onto burnt ground.
    - Place lotus positions in the flame path, if you cannot see the fire front from where you stand, move downhill.
  - If you are trapped, fill a basin with water to use as a water source.
  - If you are lying in water, do not run blindly from the fire.
  - Ensure you are in a safe refuge when the fire passes, ensure you are in a safe refuge.
  - Avoid entering any part of the building from igniting.
  - Ensure you drink plenty of water so you do not dehydrate.

- **Outside your building**
  - Ensure you drink plenty of water so you do not dehydrate.
  - Avoid entering any part of the building from igniting.
  - Ensure you drink plenty of water so you do not dehydrate.
